

ALTIX resolutely cautious

Val de Reuil, France

Tuesday, April 24th, 2009 – Frédéric BARADEL, ALTIX Vice-President Sales and Marketing communication after 2 months operation.

Since about two months, ALTIX has started its operation after purchasing AUTOMA-TECH Advanced Technologies assets and the registered trade mark AUTOMA-TECH™.

The first machine of this new era left production two weeks ago, and a second unit will follow in a few days. Both of them will be installed on the Chinese market.

Several other automatic and semi-automatic machines will be delivered within few months.

Some new orders came additionally to the initial order book for China and India while others are expected for the USA and Europe.

From the very start of the activity an entire attention has been paid to reinforce and improve our Customer Service.

In particular, new maintenance contracts are going to be launched in a few days to the attention of our Customers.

ALTIX has participated to its first exhibition under its new banner at Shanghai in March and a second exhibition is scheduled in may in East China.

Therefore, the starting favourable projections are being confirmed but will not change ALTIX business plan, resolutely cautious.
